A toolbox concept for all tools:

- System toolbox 1: Punching/
cutting
- System toolbox 2: Bonding

Döllken Profiles

SURTECO GROUP

The benefits

A toolbox concept for all Döllken Profiles system tools.

- ✓ If a single new punch or hot-melt glue gun is acquired, you immediately have somewhere to store your additional Döllken system tools
- ✓ Toolboxes are spacious and made of high quality, durable plastic (ABS), providing for clear organisation and protection of contents during transport
- ✓ Can be combined together
- ✓ An insert that will hold any professional hot-melt glue gun
- ✓ Unique compatibility - suitable for Bosch, Edma, Förch equipment etc.
- ✓ Robust and dimensionally stable
- ✓ Provides for neat arrangement of tools
- ✓ Simple click closure

Information on our toolboxes

The Döllken profiles toolbox range has now been supplemented by the new, fully compatible and particularly user-friendly toolbox systems. They are characterised by the low unloaded weight, without neglecting the necessary stability, provision of protection during transport and resilience. The tools within our toolboxes are optimally protected against external influences and damage during transport.
